#### NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens and we believe the republican form of our Government to be an object of fear and dis like to the advocates of monarchy in Europe, and for that reason, if for none other, in order to preserve our institu-tions pure and unpolluted, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By admitting the stranger indiscriminately to the exercise of those high attributet which constitute the rights of the native born Amerikan citizen, we weaken the attachment of the native, and gain naught but the sordid allegiance of the foreigner. ights of the American, which he holds under the Constiution of the Revolution, and exercised by him as the glo-ious prerogative of his birth, are calculated to stimulate o action, condense to strength, and cement in sentiment

Basing, then, the right and duly to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government: and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution for bids, and even if it did not, we have no wish to establish expect field laws; the action we seek with regard to the bids, and even if it did not, we have no wish to establish ex post facto laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these generic principles, we further hold that, to be a permanent people, we want to a principle one bound together by avantation the must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines in troduced by foreign paupers and Enropean political adventurers. From Kings our gallant forefathers won their bilerties—the slaves of Kings shall not win them back

Religiously entertaining these sentiments, we as so-lemnly believe that the day has arrived, when the Ameri-cans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear-sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wafts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

# ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawfu means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State

Third. That we will not hold him guiltless of his coun-

try's wrong who, having the power, shall place a foreigner in office while there is a competent native willing to accept. Fourth. That we will not, in any form or manner, con-Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country and upon the principles as set forth in the

independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Fifth. That we will not, in any manner whatever, connect ourselves, or be connected, with any religious sector denomination: leaving every creed to its own strength, and every man untrammalled in his own faith; adhering and every man untrammelled in his own faith; adhering, for ourselves, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our own country

men. Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

Seventh. That this Association shall be styled the

"Native American Association of the United States." Eighth. That the officers shall consist of a President, Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses to consist of three members, a Treasurer, and such others as may be required under any by-laws hereafter adopted, and whose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to convene a meet ing of this Association whenever it may be deemed ne-

THE NEW YORK Life Insurance and Trust Cmpany has a capital subscribed of one million of dollars, but in consequence of being the depository of the Court of Chancery, and of the Surrowgate Courts of the State of New York, as well as of individuals, the business means have increased to upwards of five millions of dollars, as appears by a report of the Master in Dhancery, dated 23d of May, 1835.

To persons in public employment, who receive fixed salaries, an Institution like this affords a certain mode of salaries, an insultation like this allords a certain mode of securing a sufficient sum for their families at a future day; and if the object of a parent, besides that of merely making a living, is to accumulate something for the support and education of those who may be left behind, it can be realized in this way, without exhausting those energies of mind and person which are usually necessary through the ordinary struggles of life.

A person aged 30 years, whose income is \$1,000 per annum, may, by the appropriation of \$118 a year, secure to his children \$5,000, even if he should die the next day. A husband 30 years old, may provide \$500 for his wife by paying annually the small amount of \$11 80. At 45 years old, a clerk may create a saving fund of \$1,000, for years old, a cierk may create a saying fund of \$1,000, for the payment of his debts, by the annual premium of \$37 \$0. At 60, the same amount may be secured during a period of seven years, for the yearly payment of \$49 10. In the minor offices of the public service, experience has shown that the salaries are not sufficient to enable the incumbents to lay up any thing, even for the infirmities of age, much less for the maintenance of those who survive. The labors of thirty years, are, therefore, productive of only the surveyet of the day, and there were the surveyed of the survey of only the support of the day, and there are many sens tive and anxious hearts who live for the happiness of their families, that are harrassed for years by the dreadful

pprehensions of future want. For such, a Life Insurance Company holds out relief ror such, a Life insurance company notes our reflex gives reality to hope, and, by the small economy of a few iollars per month, puts the mind at ease, and affords the means of securing it for others.

The preliminaries for effecting Insurances are very

simple, being merely a declaration of age, health, and other particulars set out in the forms of the office, together with a statement of the physician and friend of the applicant upon some of the same points, the blanks for which will be furnished by the agent in Washington city.

which will be furnished by the agent in Washington city.

As the design of the company is profit on the one side and protection to the other, and its means ar 1 system are directed to that end, it only requires a reciprocity of good faith, to produce the mutual result of strength to itself and security to its customers.

Officers in the Navy will also be Insured, either for shore or sea duty; the latter service, however, being with an additional premium, which will depend upon the latitude and climate of the voyage.

Insurance will be made for one year, or any period within seven years, or for life, the premium varying, in either case, according to the term. The risk of the company will commence with the date of the policy; but no Insurance will be considered valid until the policy is Insurance will be considered valid until the policy is delivered to the insured. FROM AN OHIO PAPER.

DEATWESS.—Mr. PRINTER: There is a man residing in Bethlehem, Pennsylvania, who pursueth a new plan of restoring hearing and eyesight.

By taking his advice people will find themselves so rasily getting well; so easily getting cured; that they'll almost be at a loss to tell how.

They'll almost be at a loss to know how their afflictions vere overcome, and they restored to health and happi-

ness again.

Why, friend reader, the regaining of health and of such blessings to those who had the misfortune to lose them, can never be paid with gold and silver and worldly

Indeed, the recovery of such blessings is invaluable; and when people get their hearing and eyesight again, let them offer up prayer to God, and not to man. For, it is to Him that praise is due, and not to the physician. The farmer giveth seed to the earth, but a kind Providence giveth harvest.

So, on similar principles, the physician giveth remedy to the sick, but that same kind Providence giveth health. Let us be thankful.

Let us be thankful.

A letter below will make known to applicants the nature of help, and that for a fee of five dollars 'tis sent by mail free of postage. And if any additional help—any additional remedial help—should be wanted, 'twill be sent on without any-further charge.

The fee is merely considered a recompense for the doctor's time and men'al labor.

More he doth not want.

And that which people get in return will be of more value to them than one hundred dollars of such dollar fees; and as a corroboration of the above, we annex a letter from G. W. Ells to Dr. Green:

Dear Friend. Some three years since I made application to you to restore my hearing and eyesight, and at the same time for a friend of mine, Mr. Norton, (caro,) who was afflicted with a great degree of deafness. I mention these circumstances to bring the matter fresh to your mind. We received your remedy, followed the pre-scriptions, and were soon restored to the use of our ears and eyes; our general health, also, improved in the mean time, by the excellent advice you gave us on the subject

of health and long life.

A young man applied to me a few days since for information—he is afflicted with weak eyes—medical men here, in our parts of the world, tell him that the optic nerve is weak. I immediately referred him to you as the only man within the circle of my acquaintance who could give relief in such cases; and he not conveniently able to write, I concluded to write myself, and at the same time enclose the customary five dollar fee and request that which is necessary will quickly be sent on. Be kind enough to send me one of your pamphlets on

the subject of health, temperance, and long life. Yours, in friendship, G. W. ELLS, P. M.

The only alternative, then, is to adopt that mode, life which is most kindred to his profession, and which next to the living voice of the preacher, seems to be the most fitting instrument to promote the glory of God, and the happiness of his creatures. In his judgment a religious press is that instrument—the press being confessed by one of the mightiest levers that moves this moral world gious press is that instrument—the press being confessed by one of the mightiest levers that moves this moral world the has chosen Washington as the locality of this press for various reasons. Every interest in the country is beginning to appreciate the importance of this fact. Newspapers, magazines, and pamphlets, expressing every variety of opinion, in politics, morals and religion, are daily going forth as missionaries to every State, town, county, and family of this great nation, fixing the principles, and moulding the manners of its citizens. Under these circumstances he has thought that the Episcopalians of the United States would like to that the Episcopalians of the United States would like to see a press established at this great centre of moral influences, displaying the ensigns of the Gospel, and inscribed with the motto of that Church which was built upon the foundations of the Apostles and Prophets, was cemented with the blood of a glorious army of martyrs, and which says to the angry surges of error, which are beating against her bulwarks, and battering down the walls of other so ieties, 'here shall thy proud waves be stayed.'

Dr. Jonathan Going, President of the Granville College, Ohio, (late of New York,) in a letter to the proprietor, dated New York, December, 1836, says—"he was laboring under a severe cold, cough and hoarseness and that his difficulty of breathing was so great that he felt himself in imminent danger of immediate suffocation, but himself in imminent danger of immediate suffocation, but was perfectly cured by using this Expectorant." Mrs Delks, of Salem, N. J., was cured of Asthma of twenty years' standing, by using two bottles of this medicine. Mrs. Ward, also of Salem, was cured of the same combaint by one bottle. A young lady, also of Salem, who was believed by her friends to be far gone with consumption, was perfectly restored by three bottles. Dr. Hamilton, of St. James, South Carolina, was greatly affected by a bough, hoarseness and soreness of the lungs, and on using the title of this medicine found normanest relief a might
